Rose,

As I stated to you in my previous email I am not interested in engaging in a job that makes money off the backs of financially strapped, sometimes unhealthy and needy individuals. I don't care what kind of insurance, or safeguards, you want to sell them... I am more interested in helping them to deal with the stress that comes from not being able to afford what you're selling or by helping them to deal with the paramount issues an insurance company is not interested in helping the client with... simply put, I do not want to work for your company, nor do I want to engage in employment that would adversely affect an individual in any way, minor or major.

Thank you again...

Gina
