Subject: Fix the World Facebook

I have removed myself from the FB group.

It is very sad (and **very 3D**) that your actions have obviously prejudiced people against me as evidenced by your entire "group" excluding me from their personal interactions as well.

When/If you are genuinely interested in creating the shift, I am ready to make amends with you when you are ready to step up and take responsibility for your choices and how those choices have affected other people. THAT is the Paradigm Shift and it requires transparency and absolute truth.

Are you TRULY ready for The Paradigm Shift ???
