Cool beans ! i will do that ... from what i've read, Garry Davis is a long-time Patriot from the 50's and discovered the 'truth' waaay back then and created the World Citizen movement and paperwork which allegedly is now used by millions of people to travel locally and abroad without complying with statutory regulations ... there are youtube videos of some people using their world citizen passport, and i believe they now have a 'driver's permit' of some kind ...

Their costs are VERY reasonable and VERY tempting if i can find someone else who feels the same way i do about the paperwork ... i've looked into it quite a bit and do not see where it's flawed, nor can i refute the passport photos with countries' stamps on them ...

Gina,

You are galaxies beyond me - why not email him and ask him? Ellsworth has a certain special magic about it! I keep running into patriots from Ellsworth.

I'd like to know too - once I know what it means... :)
