Subject: Our friend Wayne

I saw Wayne yesterday at Mt. Saint Joseph's.

His son Chris (from Texas) was there and Wayne's first ex-wife was also there.

Wayne was snoring when I walked in but he stopped snoring when I started speaking. When his son Chris would speak or when there was silence, Wayne would start snoring again but when I spoke he stopped snoring as if he was trying to be quiet so he could listen to me.

He is not doing well and has not eaten in a few days. Chris says he has been sleeping mostly all the time since he arrived in Waterville.

If you want to see him before he passes, if that is The Plan, you may want to do that immediately. My intuition is telling me he may pass sooner than we expect.
