Subject: RE: Assistance with Heat and Electric Bills

Please notify your customers who received this message that Community Concepts only services residents of Androscoggin and Oxford Counties. I would hate for Community Concepts to be inundated with phone calls from people they cannot service.

Subject: Assistance with Heat and Electric Bills

Hello! We hope you are having a great day!

In an effort to help our customers with heating and electric bills we are sending out this information. Community Concepts encouraged us to have our residents apply for help with heat and electric expenses. You can do so by calling 1-800-866-5588. There are monies set aside for this purpose. It is on a first come, first served basis. We hope this helps!
