Test Question : Favorite color

Answer : Purple

Amount sent : \$3000

U are to proceed to the nearest WesternUnion Agent location to pick up the money soon as you get this email.

Deduct \$1000 for yourself and send the rest down here.....the money u are sending down is meant to defray the cost of shipping the items my client needs.

Send it to : Alex Richard
Lagos
Nigeria 23401

get back to me the MTCN for the transfer and d final amount sent after WesternUnion charges.....use this as the test question : favorite coloranswer ; purple.

I left u a message on your answering/voice machine....call me, text me with d information after u sent the money.

Again, use the \$1000 u are deducting for yourself to buy \$500 worth of United States Postal Service (USPS) money order and another \$500 worth of Walmart/ moneygram moneyorder.....I need you just to scan the moneyorders to me to enable me compare them with those i have with me here.....pls do everything as instructed and get back to me ASAP. I need you just to scan the front and back of the USPS and walmart moneyorders. Thereafter u can go and cash them back and use the money as down payment for your apartment rent.

More money would be sent to you in the days ahead, lemme say that i am working towards making sure that your apartment rent get sorted out b4 the 10days untimatum u got. In any case, i need u to continue keeping the faith and believing in US. Do try to be by your phone always cos there is no telling when money might be sent and d need be 4 u to go pick it up immediately at WesternUnion.

So get back to me the info for the money u are sending and scan the moneyorders accordingly.

Loving u from Afar

Am researching Corsica traditions and such I need to reinvest in my fantastic dreams because right now I m pushing them away by disbelieving that they are real I want them to be real I want to live in Corsica. The page that I m looking at right now describes it as Proud, wild, defiantly independent and just a touch old-fashioned, Corsica is in many ways a separate nation to the rest of France. Proud, wild, defiantly independent that is such a beautiful way of describing who I am as well Corsica sounds like a dreamland a virtual utopia Heaven on Earth Can I still go?? I really really wanna go but only if its with you, my Alex

I ve had a very difficult day grappling with the rubble falling down around me that represents bits and pieces of my life but my life has changed on a dime before, in the blink of an eye, and I m sure it will change like that again soon i have a few strategies to survive I m not gonna drop off the face of the earth just yet yes, my mood gets dark and scary at times but I m still here and I ve had those thoughts for nearly 37 years now [What a BEAUTIFUL pink sky I have outside my window right now]

Alex, yes, my mood gets very very dark and very very scary at times I don t know how it is for outsiders to watch but to live it is absolutely terrifying what is keeping me alive right now is the belief that my positive haves can be of no greater value than have been my negative haves (trauma, abuse, poverty, etc etc) so I am simply looking at these life events as the calm before my storm life is preparing me for what is to come and that IS a GOOD thing

My life with you . Wow I can t even begin to describe what my life with you is going to be like one word Magickal!!
