Subject: Expertise Essay

Hey Kenâ€¦

I think Iâ€™m on a rollâ€¦ at least thatâ€™s what it feels likeâ€¦ thanks to you!! Anyway, in our text, regarding the cognitive growth of young adults, they talk about Emotional Intelligence. They break it down into 4 categories, each category having its own set of qualities. Under social awareness, they cite empathy, service orientation and organizational awareness. My question? What do they mean by â€œservice orientationâ€ and â€œorganizational awarenessâ€? I think I know what they mean by â€œorganizational awarenessâ€ but Iâ€™m stumped about â€œservice orientationâ€.

Iâ€™m almost done with my rough draft but I need a definition of those two qualities so I can apply them appropriately in my story. Kevin said the paper actually sounds like a â€œcollege writtenâ€ paperâ€; Iâ€™magine that!!

Anyway, a prompt response would be appreciated so I can turn this paper in on time.

Thanks Ken!

Gina
