dysfunction. I am so sorry you and your family got dragged into this but I am grateful you were willing to be the father that Aria needs and to give her the safe, loving, stable family life she deserves.

I am not asking to see Aria or to speak with her although I always want to when the time is right.

I do hope you understand that I have not been allowed to visit with Aria or have any type of relationship with her since 2015 because of Jenna's and Alice's decisions, just like what happened to you, and that you will give me an opportunity to prove that I am not the person I have been described as being.

I hope you will consider having lunch with me so you and I can start getting to know each other better and so you know that I am not any type of threat to you, your family, Aria or Jenna.

All I want is to be given the chance to be Aria's grandmother as I have always wanted and tried to be.

Thank you for taking time to read my message and any consideration you may give my request.

You can contact me through FB or directly at my contact info below:
